

1st September 2026

Dear Parents and Carers

I hope you have all had a lovely summer break and have managed to enjoy some time together with family and friends.

We are really looking forward to welcoming all of our children and families back to Hampton tomorrow and beginning another exciting school year. It will be wonderful to see everyone back, particularly our new children and families who will be joining the Hampton community for the first time.

You will notice when you arrive at school, we currently have some essential roof works taking place and there is scaffolding around several areas of the school building. All classrooms remain accessible via their usual external classroom doors; however, in some areas due to the scaffolding, parents and children may need to walk on the field to access their classrooms. The works are due to be completed by the end of October.

Please be particularly mindful when walking around the school site, especially if we have had heavy rain and ensure that children are closely supervised around the areas where scaffolding is in place. This may make drop-off and collection slightly different for some families while the work is being completed and I thank you in advance for your patience and understanding.

Staff have been working incredibly hard preparing classrooms and getting everything ready to welcome the children back and we are all very excited to see them tomorrow.

Here's to another great year at Hampton – Working Together, Achieving Together ♥♥

We look forward to seeing you all tomorrow!

Kind regards

Ms Nunn
